MISSOURI SCHOOL OF MINES AND

INTRODUCING "PISTOL PETE"

HE WILL ESCORT YOU

METALLURGY PRESENTS THE 1939

Rollano

DEDICATED

● TO HIM
WHO IN HIS PROFESSION HAS BEEN CALLED BY HIS COLLEAGUES

"A natural teacher to whom books were unnecessary" and by his students past and present "The 'Dad' of the School of Mines"—two great personal tributes of respect and love—we dedicate this, The 1939 Rollamo.

LEON ELLIS GARRETT

Director • Professor • Friend

The 1939 Rollamo has endeavored to portray typical student life with hope that it will always recall pleasant memories to mind.

THE COLLEGE

*College ties are lasting—
when you choose your col-
lege, you choose for life.*

Dr. Chedsey addressing students before the St. Louis U. football game.

(ABOVE) Dr. Chedsey and Professor E. G. Harris after laying the corner stone of Harris Hall.

ADMINISTRATION

The first Director of the School of Mines was Professor Charles P. Williams, State Geologist of Delaware, who also acted as professor of chemistry and metallurgy. His only assistant was William Couch, instructor in English. The enrollment was only twenty-eight, but increased to seventy-five the second year.

From this meager beginning the school has grown by leaps and bounds until we now have ninety well trained faculty members and a total enrollment of 807 students, and there are some 2100 engineers all over the world who have received degrees in at least one of the eleven curricula offered.

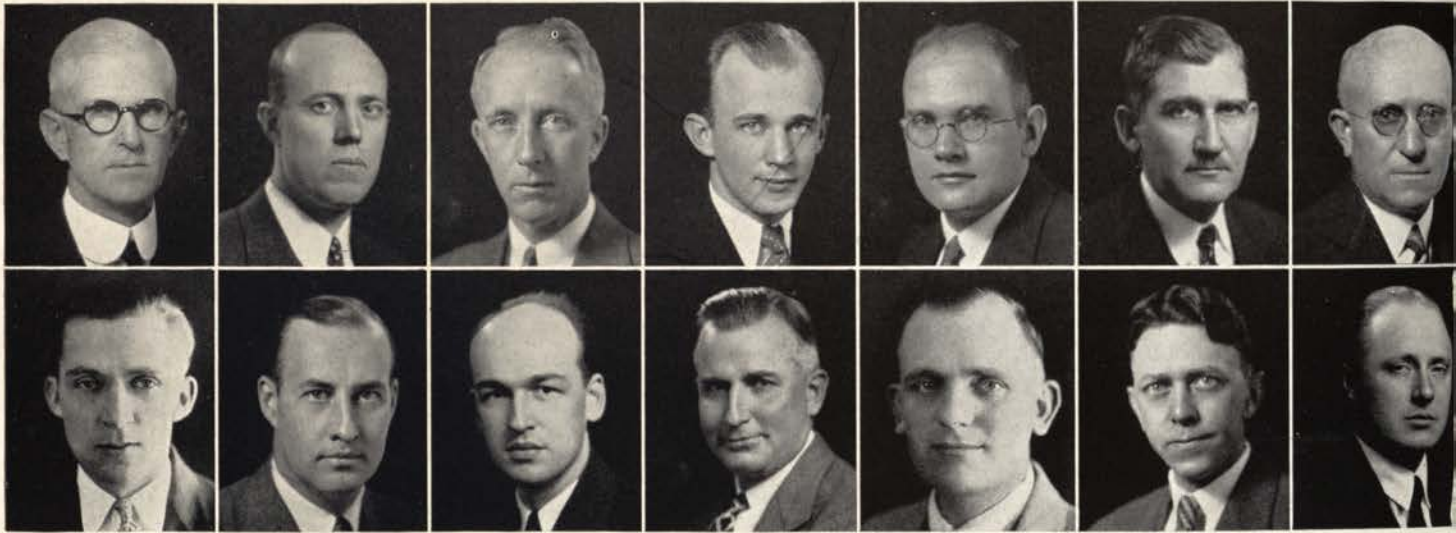

WILLIAM REUEL CHEDSEY, *Director*
E.M., Doctor of Engineering.

HENRY HORTON ARMSBY, *Registrar.*
Student Advisor and Secretary to the Faculty.

HISTORY

Missouri School of Mines

Even among early settlers of Missouri who opened up the lead and zinc mines in the region, and developed the other mineral resources of the state, it was long a dream to establish a State Mining School where practical engineering could be taught. It was not until 1870 that the idea crystallized. At that time the Missouri General Assembly, accepting the conditions of the Federal Land Grant Act of 1863, definitely created the Missouri School of Mines by legislative enactment. Carrying out the provisions of the founding statute, the School was officially located at Rolla, Missouri, on December 8, 1870.

The first class to graduate was that of 1874, which consisted of the three following graduates:

GUSTAVUS H. DUNCAN ... *Civil Engineering*
JOHN H. GILL *Civil Engineering*
JOHN W. PACK *Mining Engineering*

The present middle section of the Chemistry Building, the first structure added to the campus, was built in 1883. In 1889 a dormitory was built but later turned into the Directors Residence. The Mining and Metallurgy building was constructed in 1893, but this building is now better known as the Power Plants. Mechanical Hall, which then contained the gymnasium and machine shops, was erected in 1902. The schools largest building, Norwood Hall, built in 1903, is built on foundations of a fortress and arsenal, Fort Detty, that commanded the northeast section of town. Following Norwood Hall the buildings were built in the following order: Ore Dressing and Metallurgy Building, 1909; Parker Hall, 1913; Jackling Gymnasium, 1915; Mining Experiment Station, 1923; Warehouse, 1926; and in process of being built, Harris Hall.

The school grew slowly but steadily until the period 1913-14 when a few enemies of the school after repeated efforts brought a crisis into M. S. M. affairs. During that period there was a determined effort to either limit the courses at M. S. M. to Mining and Metallurgy or move the school bodily to Columbia.

The School of Mines was formally opened Nov. 23, 1871 in what is now known as the Rolla Building.

*Leber, Stewart, and Kamper
—Brains and ?*

*Koch and Cowan in the
odorous Organic lab.*

A bit of everyone at play.

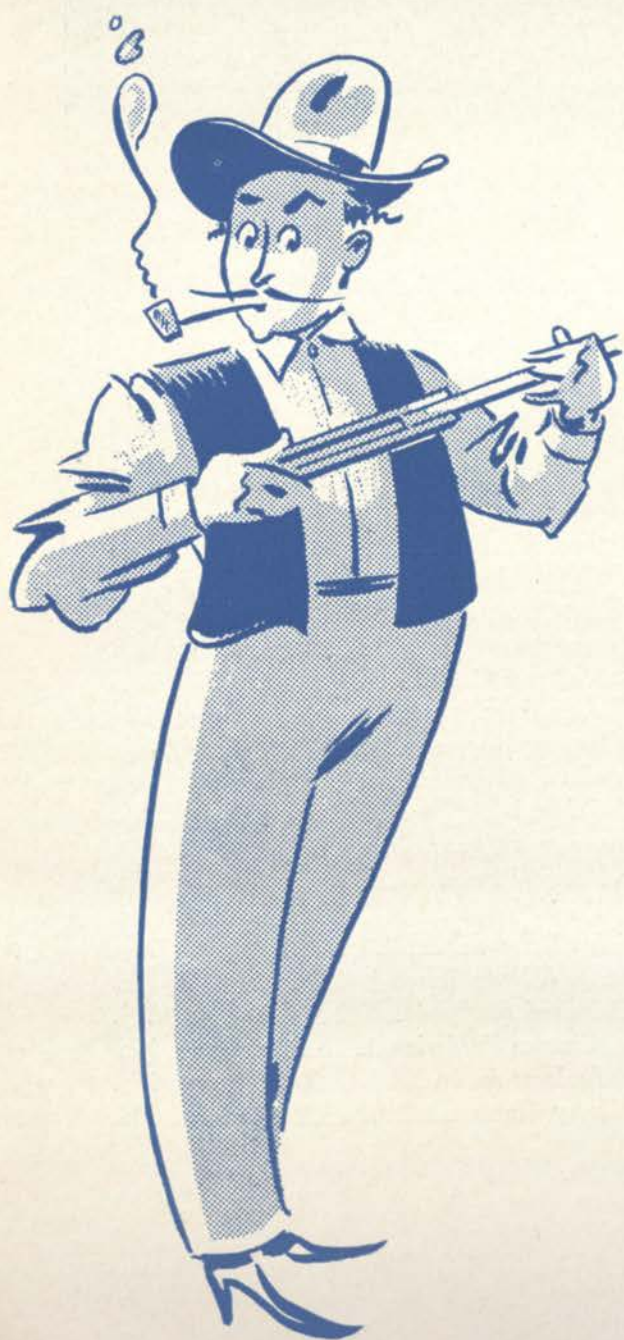

The Junior Class of 1938-'39 has had one of its most successful years. The year was officially opened on September 5 with Registration Day. From that time on the Class has forged to the front in all activities.

The election of Class officers saw some "tall politicing" taking place. The staff of officers showed a clean sweep for fraternity men, with Herb Kamper—Herbie to you—as president, Art Weber as vice-president, Russell Gund as secretary, and Jimmie Carr as treasurer. The Class has functioned very efficiently under this regime.

In activities, the Junior Class has clearly shown its "stuff," having cleaned up in most sports, and having taken over its share of campus offices.

This Class is the first Junior Class to be subjected to the humiliation of final exams. There was much wrangling over this matter, but like true soldiers, the Juniors finally surrendered to the inevitable, and are now looking forward to another similar encounter as the end of school nears.

With chins up, eyes to the front, and ever awake to the interests and needs of MSM (including the elimination of the newly applied elephant "dungemittel"), the Juniors look forward to their final year in 1939-'40, in which they expect to continue their fine work of the past year.

ROLLAMO CO-EDS

As man's world is more and more invaded by women—so the weaker sex enters the engineering field. There is a record number of coeds enrolled in school this year.

The position of the Coed on the campus is indeed unique in that "Miners" are traditionally rough and tough, and do not possess the qualities for appreciation of femininity. Several of the Coeds are enrolled with intention of graduating as engineers, while others are taking courses which will apply toward a degree in another school.

The Coeds in the Missouri School of Mines organized last fall as a social group under the direction and guidance of Mrs. W. T. Schrenk, Faculty Advisor, and Dean of Women. Social meetings are held at the homes of the members.

<i>Cadet Lt. Colonel</i>	W. R. ELLIS
<i>Cadet Major</i>	H. F. CRECELIUS
<i>Cadet Captain</i>	R. L. GARDNER
<i>Cadet Captain</i>	H. S. KIDD

The primary mission of the R. O. T. C. is the procurement of well trained young men who will enter the reserves of the Army of the United States to serve in case of a national emergency as officers in the branch of the service in which they are best adapted.

The Engineer Unit of the R. O. T. C. was established at the Missouri School of Mines in March 1919. It was made permanent by the National Defense Act of 1920. This year the enrollment was greatly increased. W. R. Ellis was chosen to lead the organization and was appointed to the office of Cadet Lt. Colonel.

SPORTS

Healthful competition of athletic contests builds fine spirit and cultivates personalities as well as strong bodies.

COACHING STAFF

The present coaching staff took over their duties at MSM two years ago, and since then have proven themselves very efficient. Head coach Gale Bullman came to Rolla from Washington University, where he had served as assistant coach for several years. Prior to his duties there, he had starred in all branches of athletics at Virginia Wesleyan University and completed his playing career by playing two years of pro football.

Percy Gill has been Bullman's assistant in all sports as well as being head basketball coach. Percy played football at Missouri University and later served as freshman coach at Washington University.

Jim Parker has served as assistant coach and trainer while studying Chemistry at MSM. His help has been valuable to the team.

JIM WILSON

Captain, 1938 Football Team.

Last year Jim was the tough luck player of the team, and if a broken wrist hadn't stopped him, he would have probably rated all star. Playing at right end, he was always in there scrapping, especially on the defensive.

This season, Jim came back with a bang and played grade A football all season until the Springfield game. He was injured in the encounter with the Bears and was unable to play in the last game. Nevertheless, he made all MIAA and the boys elected him captain at the end of the season.

He's one of those popular guys on the campus as well as on the gridiron.

FOOTBALL

BOB NEVINS

"Syndicate Man" was the end with the sticky fingers. He accounted for many of the Miner goals thru his uncanny ability to hold on to the ball after it was passed.

DICK CUNNINGHAM

Dick played in every game this season at halfback position. An excellent defensive player as well as possessing that certain something needed to cross the payoff line.

PRESTON AXTHELM

"Ax" plays center, and although injuries benched him after the Maryville game, he rates as one of the outstanding players of the season.

JOE SPAFFORD

"Arkansas" played center for the Miners and made all conference at that position. Should be regular "pivot" post next season.

IRVAN CURTIS

"Whitey" ended a three-year career here by doing a whale of a good job at guard. Captained the team most of the year.

WALTER KOZIATEK

"Airedale" was hurt in the St. Louis U. game, but in spite of this, played in every game. Played his usual style of sensational ball.

OTIS TAYLOR

"Oat" likes to carry the ball, and quite frequently takes it over the payoff line. Played and lettered 3 years with the Miners.

WALTER BAUMSTARK

"Shorty" has played and lettered three years with the Miners. He plays that hard-hitting brand of football so desirable in a full-back.

HENRY UELK

"Snookie" played his first season in the Silver & Gold outfit this season and did a remarkably good job at tackle. Should see lots of action next year.

JIM WILSON

Captain
1938 Football Team.

JIM KIESLER

"Stooge" saw action in every game but one in four years. One of those ball carriers.

FRANK ROGERS

Played and lettered 2 years at guard. Saw lots of service this year and should see more next season.

JIM STEVENS

"Steve" has played and lettered 2 years with the Miners. Plays tackle.

HARLEY LADD

"H" made the all conference this year, playing in every game. He was elected captain for next season.

FOOTBALL

PROGRESS STOPPED AFTER TWENTY-FIVE YARDS.

NO GAIN AGAINST CAPE'S INDIANS.

THE ST. LOUIS U. FOOTBALL GAME—The Miners opened the 1938 football season by losing a hard fought game to their traditional rivals, St. Louis U.'s Billikens, 12-0. The greater weight and experience of St. Louis proved too great a handicap, the Billikens pushing over touchdowns in both the first and last period, while holding the Miners scoreless. The bright spot of the game was the great defensive power displayed by the Miners, as they stopped powerful Billiken thrusts time after time.

THE CHILLICOTHE BUSINESS COLLEGE GAME—In the first home game of the season, Oct. 8, the Miners opened their win column by winning decisively over Chillicothe Business College, 30-6. As expected, this game was a breather for the team and they scored almost at will. The scores in the first half were made by Cunningham, Cook, and Ladd. In the second half Ladd and Cunningham each scored again. It was not until the last few minutes of the fourth quarter that Switzler of Chillicothe intercepted one of Cook's passes to score the Ducks' only counter.

THE MARYVILLE GAME—The Miners took a sound trouncing at the hands of the Maryville Bearcats to the tune of 21-0. The game was largely dominated by the thrusts and plunges of Maryville's two all-conference backs, Bill Bernau and Stanley Pelc. The Miners put up a great fight, but their best efforts couldn't seem to compare with the steam roller the Bearcats rolled up and down the field.

THE ARKANSAS TEACHERS COLLEGE GAME—The Arkansas Teachers of Conway, returning from their first defeat in 33 games, sought revenge from the Miners by defeating them, 27-0. The Arkansas Bears made the only score of the first period on a long pass from Heath to Turner. The Miners did their best playing in this period. At one time they pushed to the ten-yard line only to lose the ball on downs. In the final period the Bears opened a passing attack that completely

subdued the Miners. The Miners were able to hold the Bears on ground plays, and actually gained more yards from scrimmage.

THE CAPE GIRARDEAU GAME—In the Miners third home game, Oct. 29, they came through with a 35-0 victory over the powerful Cape Girardeau Indians. The Miners all played good ball and paced by the work of Bob "Syndicate Man" Nevins, who scored one touchdown and paved the way for two others, won the game on passes. Ladd and Baumstark did most of the scoring for the Miners.

THE KIRKSVILLE GAME—The Kirksville game was played under the greatest handicap the Miners faced all season, a muddy field. They held their two game winning streak, however, by coming out on the top side of a 6-2 score. Taylor's pass to Ladd early in the first half gave the Miners a lead which they held throughout the game. In the last few seconds of play the Miners, deep in their own territory, gave Kirksville a touchback in order that the following kickoff would take up the remaining time.

THE SPRINGFIELD GAME—The Springfield game was a disappointment to the Miners and their followers. Led by freshman halfback Rimmer, Springfield administered the Miners an Armistice Day defeat of 19-7. The Miners only score came late in the last quarter when Kiesler went over the payoff line from deep in Springfield territory. Roger's kick was good for the conversion.

THE WARRENSBURG GAME—The final game of the season saw the Miners return from a defeat by Springfield to trounce the Warrensburg Mules, 27-6. The Mules scored first as the result of blocking one of Cunningham's punts. After this the Mules failed to come within scoring distance during the rest of the game. The Miners counted early in the second quarter on a long pass from Cook to Nevins. A few minutes later Ladd, behind perfect blocking, scored on a reverse play. In the final period the Miners scored twice, once after a series of passes and again after a long drive that started in mid-field.

TEAM
LINEUP

THE
SQUAD

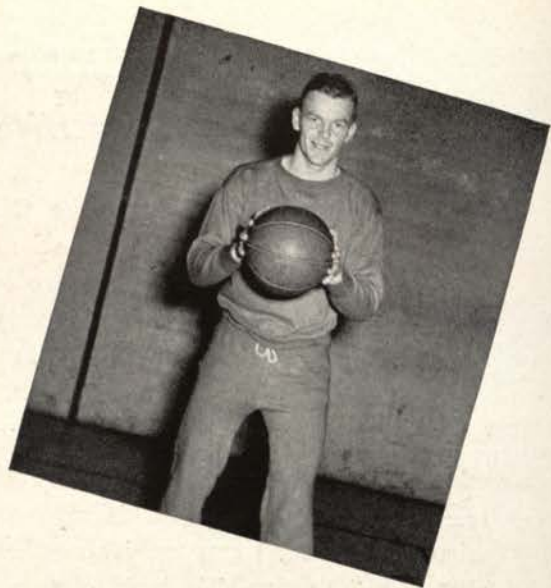

BASKETBALL

JIM WILSON

Captain, Basketball Team

Jim is one of the few men in the history of Miner sports to captain two of the major athletic teams. But he is well deserving of the distinction, for he is athlete-extraordinary, one who will be remembered long after he has departed from the campus.

The completion of the conference basketball schedule found the Miners occupying the cellar. Though they fought hard they were unable to break into the win column. Conference play was featured by hard fought closely contested games for the most part. Maryville eked out two wins over the Silver and Gold, one being an overtime game. Springfield was victorious twice over the home boys by narrow margins. In another game the Miners fought hard before losing to the conference champions, Warrensburg.

A 49 to 37 victory over Central Wesleyan officially opened the season on December 1. The week following the Miners ran into plenty of trouble, losing to Arkansas State Teachers College and St. Louis University.

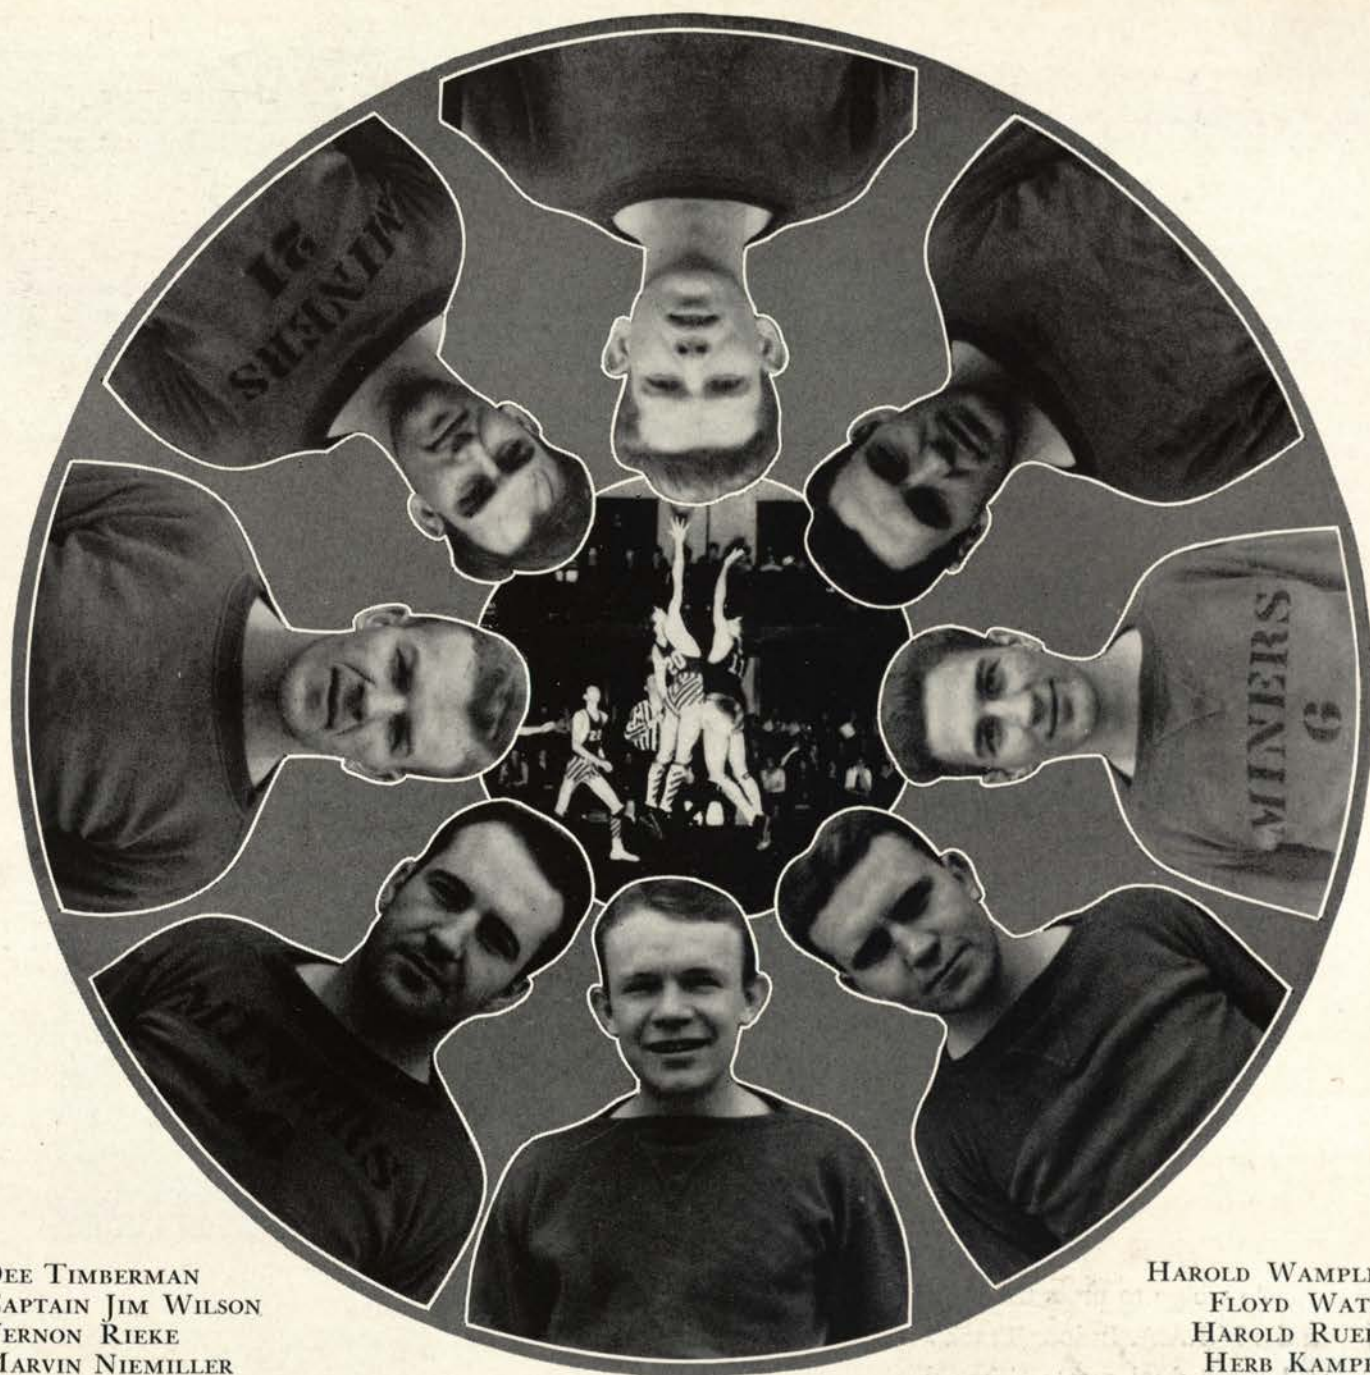

Wampler goes for a high one as Niemiller watches.

Scholastic difficulties resulted in the loss of Cook and Wargo at the end of the first semester. Both were sorely missed during the remainder of the season.

The second tussle with St. Louis University caused the previous losses to fade into the background when the M.S.M. basketekers upset the dope by taking their old rivals to the tune of 25 to 24. Kamper's 16 points were a big factor in the victory.

The season ended with another win, this time over another team, the Wisconsin School of Mines. The final score was 29 to 27, with the visitors throwing a scare into the local boys during the last few minutes. This game rounded out the collegiate basketball careers of Captain Jim Wilson and Vernon Rieke.

No. 1; A. Tucker, No. 4, in the mile.

Pep talk.

TRACK

The graduation axe hit the Miner track team hard last spring. Although Coach Bullman has eleven lettermen back, it looks like the Miners are destined to wind up well down the ladder.

As we go to press the Miners have competed in the M.I.A.A. Indoor Track Meet at Columbia, and three dual meets. Two dual meets remain on the Miner schedule in addition to a triangular affair with Warrensburg and Kirksville, and of course the Conference Outdoor Meet to be held in Rolla.

The Miners annexed fourth place in the M.I.A.A. Indoor Track meet this year. Otis Taylor took first in the 60-yard dash, while thirds were won by Ladd, N. Tucker, Corneau, and Fort in the shotput, two-mile, low hurdles, and mile, respectively. Cape Girardeau won the meet, Springfield was second, Maryville was third, the Miners were fourth, while Kirksville and Warrensburg were far behind.

Ladd tosses one.

Hall—Up and at 'em.

Taylor, second, Ladd third in the hundred.

Cape Girardeau soundly trounced the Miners in the first dual meet. The Indians won every field event, and as a result completely walked away with the meet. Taylor won the 100-yard dash, Fort continued his good work by winning the half mile and the mile, and N. Tucker annexed the two-mile. This meet indicated only too well that the Miners were sadly lacking in field material.

No records were shattered as Springfield defeated the Miners in the next dual affair, mainly on the basis of field events. Fort was first in the mile and the mile relay team composed of Lynch, GaNun, Carver, and Pohlmann broke the tape. Springfield was ahead from the start and the meet was never close.

The Miners took St. Louis University into camp rather easily, winning a first in most of the track events as well as gaining a few victories in the field.

"Tarzan" Strawhun in action.

The following men are outstanding in their events: *Hurdles*—Corneau, Mitsch, Weiss; *Dashes*—Taylor, Ladd; *Medium Distances*—Corneau, Taylor, Hall, Lynch, Carver, GaNun; *Distance Runs*—A. Tucker, N. Tucker, Fort; *Relay*—Lynch, GaNun, Carver, Pohlmann; *High Jump*—Ladd, Burgess, Strawhun; *Broad jump*—Hall, Taylor; *Javelin*—Taylor, Strawhun, Ladd; *Discus*—Strawhun, Taylor; *Shot*—Ladd, Taylor; *Pole Vault*—Gund, Hessman, Benitez.

The Miners should annex the triangular meet with Kirksville and Warrensburg, while the remaining dual meets are toss-ups. A prediction would find the Miners in fourth place in the M.I.A.A. Outdoor Meet.

SWIMMING

Swimming was revived this year after being dropped from the Miner sports in 1937-38. This season's team has proven to be one of the best in the history of the school, winning fifty per cent of their meets.

After being swamped by the Kemper Yellow Jackets in their first meet, with Carter being the only Miner to win a first, the Miners came back strong in their next two meets, and turned back the mermen of Jefferson City Junior College twice in one week. The Westminster team met the Miners next, and defeated them twice. Hancock was the only Miner to get a first in the initial meeting, but the second meet was a close affair all the way up to the relay, Westminster winning the relay and also the meet. Springfield journeyed to Rolla for the last meet of the season, and were soundly trounced. Carter and Hancock proved to be consistent winners for the Miners all season, with Jamison gathering his share of points in the backstroke.

The team was under the excellent instruction of Coach Bullman, Jimmie Miller, and Tony Silverman. These men certainly deserve credit for the team's fine performances. The Miners plan to enter the MIAA conference next year and they should make a good showing in the title race.

THE MEETS:—Miners, 18.5—Kemper, 42.5; Miners, 44—Jefferson City, Jr., 24; Miners, 37.5—Jefferson City, Jr., 28.5; Miners, 23—Westminster, 41; Miners, 32—Westminster, 36; Miners, 52—Springfield, 17.

<i>Secretary-Treasurer</i>	E. OLCOTT
<i>Captain</i>	H. WILDER
<i>Coach</i>	SGT. W. B. BERTRAM

In the corps area intercollegiate match of the present year, the Miner team succeeded in finishing ninth in competition with twenty-two universities and colleges. The last meet of the season saw a score of 3524 by the Miner team in the S.A.M.E. match. This was an increase of 112 over the score for the same match the year before. The team finished fourteenth out of thirty-six in the S.A.M.E. match. The squad was made up of eighteen regular competing members.

MINERS	OPPONENT	SCORE
3574	Texas Tech.	3370
1357	Washington U.	1379
3668	Texas A. & M.	3675
3682	Oklahoma A. & M.	3759

MINERS	OPPONENT	SCORE
3682	Kansas U.	3522
3664	Colorado Mines	3570
1394	Iowa U.	1377
3671	Rose Poly.	3576

GOLF and TENNIS

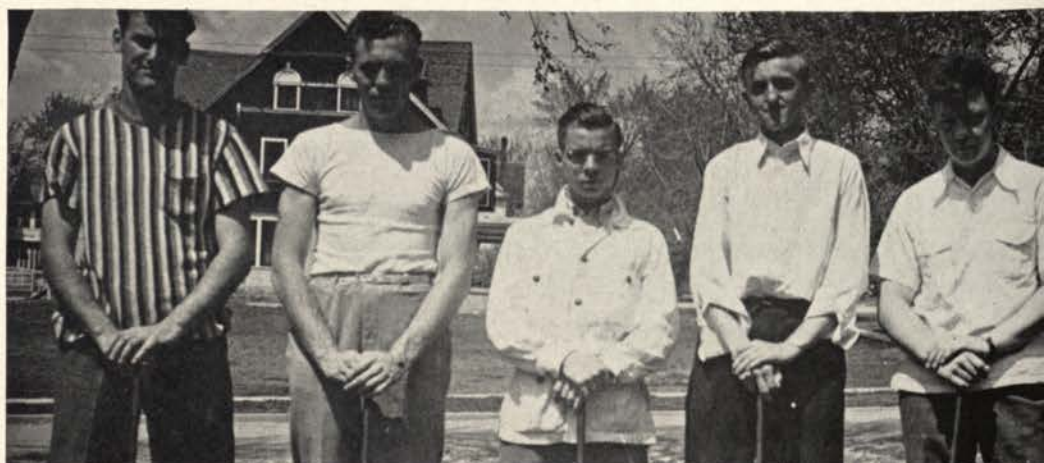

Although three of the members of the championship team graduated last year, it looks as if the Miners will repeat last years performance. Floyd Watts is back in No. 1 position, and still plays his sub-par brand of golf. Two newcomers hold the No. 1 and 3 positions on the team. Charles Clarkson, a lad who hails from St. Louis' Glen Echo Club where his Dad is Club Pro holds down the second berth, while Mark Beard, Michigan State caddy champ last year, is in No. 3 position. De Timberman, the Rolla boy who grew up beside the M.S.M. course, is fourth.

So far the team is undefeated. A prediction would find them still undefeated when the season ends.

. . .

The court game has proven popular this spring. However the lack of practice has been responsible for the team's failure in the meets, and the Miners have yet to win an encounter. Harsell has been the ace of the meets. Jack McKee plays second, Leber plays the third singles, and Silhavy and Allen the other. Several of the other men will probably break into the lineup before the season ends. Leber has acted as captain of the team.

<i>Treasurer</i>	J. SPAFFORD
<i>Secretary</i>	J. LOVERIDGE

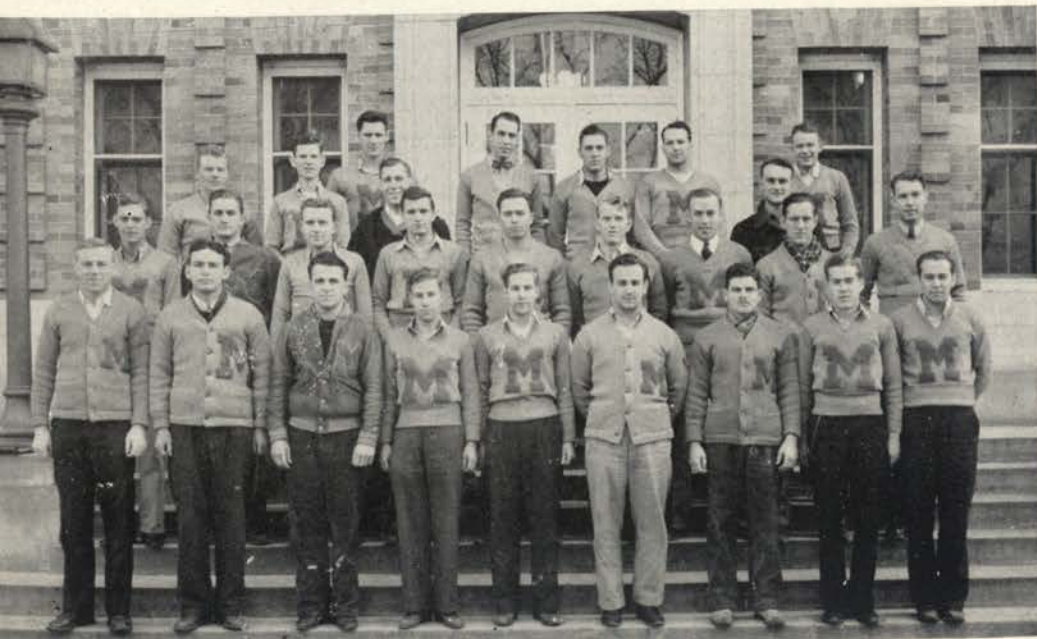

The M.S.M. "M" Club was organized in the fall of 1938 and the club charter was approved by the faculty on January 15, 1939. The club is composed of lettermen of all major sports. The purpose of the organization is to promote interest in athletics and to keep graduate lettermen in touch with the school. Officers are elected at the beginning of every semester. Present major lettermen in school are the charter members and all new major lettermen will be initiated each succeeding semester.

INTRAMURAL SPORTS

Sigma Nus and Theta Kaps on court.

Taylor covers up as Domjanovich waits for the kill.

Hancock in perfect form.

CROSS COUNTRY RACE:—First place in the cross country race was captured by the Juniors this year. Payne of the Juniors finished first, Mendenhall, Frosh, second, and GaNun, Pi K. A., third. The race was held between halves of the Miner-Cape Girardeau football game on Dad's Day.

TOUCH FOOTBALL:—Touch football was divided into three leagues, the winners meeting for the championship. Sigma Nu won the coveted title with a show of power. The other two teams to reach the finals were the Seniors in League "A" and Lambda Chi in League "B".

BASKETBALL:—Basketball continued to reign as one of the most popular of the intramural sports. A total of 78 games were played. The Frosh took first place with only one setback to mar their record. The Juniors and Sigma Nu wound up in a tie for second place.

BOXING AND WRESTLING:—The Juniors captured both the boxing and wrestling titles this year, taking three firsts in each sport. Sigma Nu placed second in boxing, the Frosh second in wrestling. Title winners in boxing were: Rieke, Junior; Domjanovich, Sophomore; Cunningham, Sophomore; Ridley, Pi K. A.; Winkle, Sigma Nu; Andresen, Junior; Pipkin, A. L. T., and Leslie, Junior. The titles in wrestling went to: Strawhun, Junior; Veale, Frosh; Loveridge, Sigma Nu; Silhavy, Pi K. A.; Rose, Frosh; Harrington, Junior; Kelly, Junior; and Shanfield, A. L. T.

The Pi K A's dropped this game to the Theta Kaps.

THE CHAMPS
Boxing Tournament Winners.

Burke dropping one.

SWIMMING:—Sigma Nu eked out a one-point victory over the Frosh in the swimming meet, while the Sophs placed a close third. Individual winners were: 60-yd. Breast stroke—Hancock, Soph.; 60-yd. Back stroke—Cochran, K. A.; 60-yd. Free style—Carter, Frosh.; 200-yd. Free style—Fick, Soph.; Medley relay—Sigma Nu; 160-yd. relay—Sigma Nu; Diving—Hancock, Soph and Burberry, Frosh tied.

VOLLEYBALL:—Honors in volleyball were taken by the Juniors after a close victory over Pi K. A. in the finals. Two leagues were formed with the winner of each league to meet for the championship. Pi K. A. was undefeated in League "A", while the Juniors were forced to play a post-season game with Lambda Chi to decide the winner in League "B". A. L. T. was runner-up in League "A", and Lambda Chi in League "B".

GOLF:—Hoffman and Kiser pooled their talents and "drove and putted" their way to victory for Sigma Nu in this year's golf tournament, turning in a low card of 358. Sturgis and Timberman took second place for the Juniors, Trisch and Egbert third for Pi K. A. Beard of the Frosh and Clarkson of the Sophomores turned in the best individual efforts, carding 163 and 166 respectively for the 36 holes.

SOFTBALL AND HORSESHOES:—The softball and horseshoe tournaments are just getting under way as the Rollamo goes to press. Both sports are being conducted in the form of elimination tourneys. The horseshoe tournament will include both singles and doubles as in the past.

ACTIVITIES

Wits are sharpened and personalities molded by friendship and associations made through campus activities.

PHI KAPPA PHI

BOLOTSKY CLARIDGE DECKER ELLIOTT
ELLIS HAVILAND JAMISON MUELLER
RUNYAN SMITH YEATER

Among the various honor societies on the M.S.M. campus, Phi Kappa Phi has the distinction of being the most coveted. Basing its entrance requirements upon high scholarship, exceptional character, and service, it accepts only men who have developed to a high degree the various qualities essential to the true scholar. Membership, of course, is limited to the upper ten per cent of the graduating class.

The M.S.M. chapter was founded in 1920, and for the past eighteen years has steadily served as an incentive to the students for more efficient and thorough pursuit of their studies.

For some time past Phi Kappa Phi has annually awarded Book-plates to the upper fifteen per cent of each class. It is quite apparent that such a procedure serves to stimulate student activity in classwork.

Tau Beta Pi was founded at Lehigh University in 1885. The purposes of this honor engineering fraternity can best be expressed by this preamble: "To mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates or by their attainments as Alumni, and to foster a spirit of liberal culture in the engineering schools of America."

The Beta Chapter of Missouri was founded at the Missouri School of Mines in December, 1906. Since that time it has risen to become the highest ranking honor engineering fraternity on the campus.

THETA TAU

Theta Tau is a professional engineering fraternity which had its inception at the University of Minnesota with the founding of the first chapter on October 15, 1904. The eighth chapter, the Iota Chapter of the Missouri School of Mines, was established here on February 5, 1916. Membership in Theta Tau is not based altogether on high scholastic standing; its members are selected from those students who have the most promising engineering ability in general. The purpose of the organization is to stimulate a high standard of professional interest and ethics among its members. The ritual and ceremonies of the meetings are in themselves symbolic of this purpose.

Founded at the University of Virginia in 1902, Alpha Chi Sigma has since served to raise the standard of chemistry both as a profession and a science, and to bring its members together beneath the professional bonds of chemistry. In addition, the fraternity aims to aid its members in pursuing their chosen professions and bind them together with lasting ties of friendship.

Since its formation forty-six years ago it has gained rapidly in membership and at the present time has fifty-two student chapters and twenty-two professional chapters located throughout the country. The M. S. M. chapter has been the last to receive a charter, which it obtained on May 2, 1936.

BLUE KEY

The Missouri School of Mines chapter of the Blue Key, National Honor Society, first organized here in 1931, has for its primary purpose the service of the School. Members of the Blue Key are required to have outstanding qualities of leadership and willingness to improve and serve their school.

Examples of the type of services performed are the publication of the school directory, the promotion of a "Keep off the grass" program, and the awarding of shingles to certain members of the freshman class for outstanding scholarship and leadership.

American Society of Ceramic Engineers

OFFICERS

<i>President</i>	A. L. TETLEY
<i>Vice-President</i>	S. A. PEER
<i>Secretary-Treasurer</i>	T. J. PLANGE

In 1926 the Orten Society was formed to establish a closer union between students in the Ceramic Department. It was named the Orten Society after General Edward Orten, Jr., who was responsible for the founding of the American Ceramic Society and for establishing the first Ceramic Engineering Department at Ohio State University. In 1937 the students in the Orten Society voted to change the name to The American Society of Ceramic Engineers. The organization keeps in mind its original purposes and sponsors lectures by prominent men and also sponsors moving pictures that are of value to Ceramists. Each year the local branch of The American Ceramic Society sponsors a meeting for the whole Ceramic Society at which the various student branches are called upon for some stunt to entertain the others. All Sophomore, Junior and Senior Ceramists are eligible to the Society. Freshman Ceramists are entitled to all privileges except the right to vote.

American Institute of Chemical Engineers

The Ira Remsen chapter of the American Institute of Chemical Engineers was founded on the campus in 1939. It was formerly known as the Ira Remsen Society, which had been operating since October 11, 1923. The members of Ira Remsen petitioned the American Institute of Chemical Engineers to organize a student branch of the national organization. The petition was granted in March, 1939.

The object of the society is to stimulate an interest in chemical engineering and to extend the practical knowledge of chemistry to the students of the school. This purpose is fulfilled by having men of prominence in science and industry address the society at meetings which are held twice a month.

The membership is not limited to students of chemical engineering, but is open to all students who may have an interest in current chemical problems and progress in chemistry.

American Institute of Electrical Engineers

The M. S. M. student branch of the American Institute of Electrical Engineers was organized in March, 1925.

Any Sophomore, Junior, or Senior taking Electrical Engineering is eligible for membership in the local chapter, and also, may take advantage of the privileges offered by the national organization by enrolling in the Institute as a student member.

The primary purpose of the student organization is to provide an opportunity for development of qualities of self-expression and leadership in its members by presenting a varied program of talks and discussions at its meetings.

This year's officers of the A. I. E. E. are: Chairman, William Ellis; Vice-Chairman, Leroy Smith; Secretary, Leslie Payne; Treasurer, Ruble Burns; and an executive committee composed of Forest Troutner, Elmer Peters, and Robert Spargur. Professor I. H. Lovett is faculty advisor for the Organization.

Missouri Mining and Metallurgy Association

OFFICERS

<i>President</i>	J. W. AITTAMA
<i>Vice-President</i>	I. E. CURTIS
<i>Secretary</i>	P. BLAZOVIC
<i>Treasurer</i>	R. E. KELLEY

The Missouri Mining and Metallurgical Association, student branch of the American Institute of Mining and Metallurgical Engineers, which has been attempting the organization of a student branch, was established for the benefit of the mining and metallurgy students of the Missouri School of Mines.

Knowing that young mining and metallurgical engineers of today should be familiar with the present conditions of the mineral industries, prominent speakers from these fields are obtained for the regular meetings.

American Society of Civil Engineers

The Missouri School of Mines Student Chapter of The American Society of Civil Engineers was organized by Junior and Senior civil engineering students, assisted by Professor J. B. Butler, in November, 1923. Its membership was limited to the two upper classes, but in recent years membership privileges have been extended to Sophomores and Freshmen. The local chapter is a chartered member of the national organization which is the oldest engineering society in America.

The purpose of the Chapter is to give students an opportunity to discuss problems in their work and to form closer associations among themselves. Interesting lectures and reports on large projects throughout the country are given by prominent men in the Engineering profession.

The officers of the local student chapter of A. S. C. E. are: R. G. Livingston, President; R. N. Lorange, Vice-President; A. H. Bursten, Secretary-Treasurer.

American Society of Mechanical Engineers

The American Society of Mechanical Engineers was founded in 1880 and the Missouri School of Mines branch was organized in the spring of 1930 by Dr. Aaron J. Miles.

The purpose of the association is to promote the art and science of mechanical engineering by acquainting the members with the practical and theoretical sides of engineering.

Activities include a broad research program which is carried out by having men of prominence in science and industry address the society at its meetings.

Members are offered opportunity for valuable experience in expressing themselves in technical topics by presentation of technical papers.

The officers of the local branch of the Society for 1938-39 are: Honorary Chairman and Faculty Adviser, Dr. Aaron J. Miles; Chairman, A. E. Rhodes; Vice-Chairman, C. L. Baumann; Secretary, G. E. Machens; Treasurer, R. G. Brown.

The Council in Round-table Discussion

STUDENT

<i>President</i>	J. R. POST
<i>Vice-President</i>	R. G. BROWN
<i>Secretary-Treasurer</i>	R. G. LIVINGSTON

The Student Council of the Missouri School of Mines was founded in May, 1937, its primary purpose being to provide a means of contact between students and faculty, and to promote student welfare.

The Council consists of 18 members, one from each of the nine social fraternities and nine from the Independents.

Regular meetings are held each month, and special meetings may be called as the occasion demands. The Council recommends to the faculty that which it believes will be best for the school as a whole.

THE 1939

The Rollamo Board, a group of students representing all phases of "Miner" life, functions for the sole purpose of compiling and editing in the form of a yearbook a lasting memorial to student activity of the past year. The book is, in a large measure, dedicated to the students both singly and as a whole and for this reason is planned so as to include as large a scope of the variegated student interests as possible. Though the Seniors are largely featured because of their natural tendency toward campus leadership, this book should represent to all a true bill of happenings for the 1938-1939 academic year at M. S. M. With this desire to record this year in your life and to bring pleasant memories of such in the years to come, The 1939 Rollamo Board has functioned to produce this book.

THE MINER BOARD

Published weekly by a staff of editors and reporters, who compose the Miner Board, the *Missouri Miner* has as its primary aim, the general coordination and up-building of the Missouri School of Mines. It serves as a medium for exchange of student ideas.

Somewhat secondary in scope, the *Miner* offers to aspiring individuals the opportunity to learn the craft of writing—not just for journalism's sake, but for the sake of engineering.

The Board which controls the *Miner* is organized into Business, Advertising, Circulation, and Editorial departments. Membership is limited to those who have served as tryouts for a year and who have lived up to qualifications laid down by the Board.

Starting its twenty-fifth year, the *Miner* has blossomed out from tabloid size into a full size seven-column sheet.

SWEET AND LOW

Top: Full Orchestra.

Middle Left: The Brass section. From left to right, Charles Faulkner on trombone, featured in many of the sweeter tunes as soloist, Nelson GaNun, 1st trumpet. Sam Kurtz, 2nd trumpet. "Jerry" Higley, 3rd trumpet and youngest member of the band, in spite of his age has the ability "to get in the groove."

Middle Right: The Rhythm section. "Doc" Neimiller on bass fiddle also doubles on bass horn. Bob Rankin on Piano. "Seb" Hertling with guitar also featured with violin as soloist. "Johnny" Johnson pictured with the drums is the nucleus around which the band is formed.

Bottom: The Reed section. From left to right, Milton Warren, 3rd saxophone. "Bob" Smith on tenor is truly one of the more outstanding soloist of the band. James Katz, 1st saxophone. "Mac" Stewart on baritone also doubles on tenor.

For many years the Varsity Orchestra has been an active organization on the campus furnishing music for most of the fraternity and gym dances. In a few of past years one of the members of the band has handled the arrangement and organization of the musicians, but this year the orchestra as a group has handled these affairs with James Katz acting as business manager.

The orchestra is composed of twelve men, nine of whom are students at the School of Mines and the rest of the immediate vicinity. Although the orchestra is essentially a swing band it features a few of the men in instrumental "smooth" solos. This combination gives full balance to an evening of dancing.

INDEPENDENTS

In 1935 the non-Fraternity men on the M. S. M. Campus organized "The Independents." The object of this organization, as outlined in its constitution, is to organize the non-fraternity men so they can better participate in the various athletic, social and other activities on this campus. The organization was designed to meet the needs of that large group of men who would have no other means of participation in campus activities.

All students, who are not members of social fraternities on the M. S. M. Campus, are eligible for membership, and will become active members upon the payment of their annual dues. The Independents sponsor two dances each year, given at the Gymnasium, to which all students are invited. Its members are actively engaged in all of the various intramural sports and social activities on the campus.

OFFICERS — 1938-39

<i>President</i>	JOHN H. LIVINGSTON
<i>Vice-President</i>	WM. R. ELLIS
<i>Secretary</i>	A. ERLE RHODES
<i>Treasurer</i>	JOHN G. BEACH

BOARD OF CONTROL

<i>Juniors</i> . . .	LESLIE PAYNE AND JOE STRAWHUN
<i>Sophomores</i> .	WM. NESLEY AND J. W. STEPHENS
<i>Freshmen</i> . . .	BOB POHL AND KEITH COOK

Campus Personalities

JOHNSON President of the "Keep off the Grass" Boys (Blue Key).

SOULT Lord of the St. Pat's Board; one of the Collison Boys.

CLARIDGE Editor of the Miner and enemy of the Faculty Athletic Committee.

AITTAMA Upper-Michigan-Finn; Mining and Met leader.

"PINKY" STEWART Boss of the A. A. (defunct) and one of the boys responsible for the General Lectures.

POST Student Council Head; THE campus politician; Independent leading light.

OBERBECK Pi K A Czar and Blue Key power.

WATERS (Wade Deep) Senior Class Prexy.

ELLIS No. 1 "Smarty Man" and Tau Bet President.

TETLEY Top Ceramist and Independent politician.

CURTIS (Inset) Vice-president of almost everything and football acting co-captain.

STOJEBÄ Fred Smith's best customer; the guy behind the (Thru the) Transit.

WILSON Athlete supreme; Captain of both the football and basketball teams.

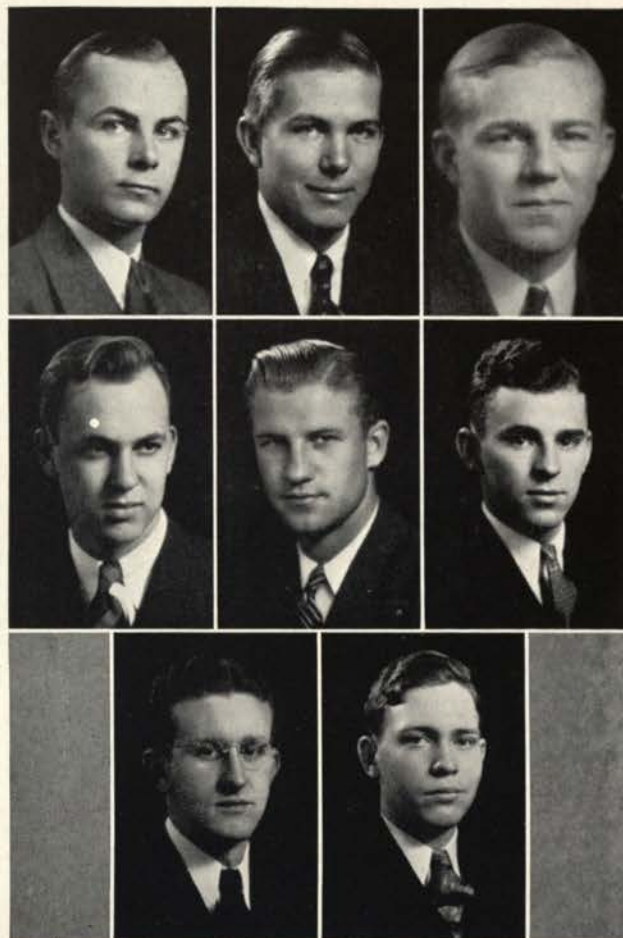

GLATTHAAR Miner Money Man and ROL-LAMO boss; high Triangle.

INTERFRATERNITY COUNCIL

The Interfraternity Council is composed of a Senior and a Junior representative from each social fraternity on the campus. These members are elected by their own fraternity, and each member may present the feeling of his fraternity on any matter coming before the council. Each fraternity abides by the rulings of the council and the council, as a body, works for maintaining closer friendship, better cooperation among the fraternities and for the best interests of the Missouri School of Mines.

The Interfraternity Council has the task of arranging all the dates for fraternity dances and sponsors a dance each year which is to promote better feeling among all the students of the school. The Council also has charge of the arrangement of schedules for the school's intramural sports program.

ST. PAT'S

St. Patrick was an engineer . . .
so all his loyal subjects com-
memorate his memory each year
in a manner quite reminiscent
of the jovial comradeship of
Old Erin itself.

THE CORONATION

As the Coronation Ceremony (the emotional highlight of any St. Pat's Celebration) began, St. Pat solemnly entered the ball room and amidst the obeisance of his loyal subjects took his place on the throne. Mr. Kurtz was followed by the retiring 1938 Queen, Miss Mary Louise Breuer, and the various Maids of Honor with their escorts. And then as Lou Breese and his boys played "The Wearing of the Green" and as France Laux took the glad tidings to the outside world via a radio hook-up with station KMOX of St. Louis; Miss Mary McCrae, St. Pat's choice for his 1939 Queen of Love and Beauty, made her way to the throne where the crown symbolic of her position was placed on her stately head.

Costume dance—Friday night.

Formal dance—Saturday night.

Tea dance—Saturday afternoon.

ST. PATS PARTY

St. Pat's officially got under way a day earlier than usual this year with the revival of the Annual Faculty-Senior Banquet on Wednesday evening. Then, after a day spent in last minute preparations, the feminine invasion began Thursday afternoon and evening. The Independents got the various swing sessions started with their annual dance at the gym to be closely followed by Charlie Armstead's band playing for the Interfraternity shindig.

St. Pat arrived "OT" via the traditional hand-car on Friday, mounted his spreader, and led the parade of floats and shillalah toting Frosh to the Knighting Ceremony. It was here that the "Old Gent" ran into a bit of difficulty in the form of a few hecklers who were, however, expeditiously removed from the scene by the Guards of Honor. After the Seniors had been properly Knighted, St. Pat announced that, in the opinion of his most esteemed assistants who had judged the parade, the Triangle Fraternity's float approached the desired perfection more closely than the other excellent entries.

Lou Breese (d) into town and effectively took care of the music production department on both Friday and Saturday nights and shone out particularly well with Billy Leach and Lida Mae Coy during the broadcast of the Coronation.

All roads led to the Sigma Nu Tea Dance on Saturday afternoon, but, since all good things must come to an end, the crowd turned to the various formal dinners which preceded the glorious ending afforded by the Formal Dance.

*The winnah!—Triangle Float—
"Beauty and the Beast."*

The St. Pat's Board was founded in 1930 to supervise the arrangements of the biggest social event held on our campus, the annual celebration known as St. Pat's. Twenty-two men make the board, two from each social fraternity and four from the independents, making everyone represented. The object of this board is to handle and take charge of all matters pertaining to the annual party. During the eight years the St. Pat's Board has had the reins they have shown and proven to be one of the most efficient and well managed organizations we have on the campus.

COLLEGE DAZE

Typical Morning

The average student arises some time between seven and half-past each morning in order that he may thus have enough time to prepare rather leisurely for his eight o'clock class. The routine of class attendance is quite similar for each of the four years—lecture classes each hour from eight till noon with but an occasional “free” hour. The great preponderance of the theoretical knowledge obtained by students at M. S. M. is absorbed during these hours each day and, despite the common belief, it is only the small minority of students who don't avail themselves of the opportunities thus afforded to find out the “why” of the various things in which they are primarily interested.

Afternoon

Theoretical knowledge obtained in the lecture classes of the morning hours is put to the test of practicality in those hours following lunch. Laboratories on the campus are of varied nature and fulfill to a remarkable degree their prime purpose of giving the student the opportunity of performing those tasks which will be required of him after he enters the industrial engineering field. Labs, however, last only till four o'clock and from that time henceforward the

time of the student is his own or at least to a certain extent it is his till that time when the prerequisite activity of all "students," studying, demands his attention. The time after lab may be spent in any form of athletic, social, literary, journalistic, or a dozen other forms of activity outside the pales of those specifically required by the committee on curricula.

Evening

A liberal education, even for "us engineers," must include all phases of life so for the past few years the School of Mines has laid more and more stress on the social aspect of the engineer's life. Due to the fact that there are only an ordinary number of girls in Rolla and an extraordinary number of fellows, feminine companionship is usually at a premium, but there are always those other not quite so satisfactory methods of letting off steam through the medium of card-playing, tom-foolery, or "busting," that old Miner custom. Of course on week-ends there are usually enough out-of-town dates here to make things interesting (nothing like cutting your best pal's throat) and during the week one must remember that little item of studying again for they tell us that engineering students have plenty of it.

REST OF DAY

1. *Rhodes and Machens in lab. "pose."*

2. *Girls at Saturday afternoon football game.*

3. *5:30 to 6:00 P. M. at Sigma Nu House.*

4. *After Dinner Horse-Play.*

5. *Weekend nite bull session.*

6. *Weekend Dance — K. A. House.*

7. *Posed for folks at home—clock turned up.*

ODDS AND ENDS

1. *Trip to St. Louis U. game—decorations?*

2. *"The Road of Progress Gentlemen."*

3. *Freshmen going through lily pond Freshman Day.*

4. *Upperclassmen giving that old Green John tobacco to the Freshmen.*

5. *Horse play in Angle House—a game of guess who.*

6. *Kozy—working his way through college.*

Acknowledgments

The 1939 ROLLAMO Board wishes to express sincere gratitude to all those who have helped realize this year's Rollamo. To Mr. Bruce Cowan and Mr. Owen Marsh of Pontiac Engraving Company; Mr. Garth Bemis and Mr. Heath Meriwether of Artcraft Press; and Mr. Alan MacEwan, the photographer, we are particularly grateful for their many suggestions and helpful assistance.

The photographs used throughout the book have been obtained from various sources. We wish to extend our appreciation for the photographs to Mr. Edgar Kelly, Mr. Noel Hubbard, Mr. Basil Compton, Mr. James Miller, and the Photography Club. The views of the Campus were taken by Dr. S. R. B. Cooke.

To the advertisers we owe many thanks and much appreciation for their interest and cooperation in making this book possible.

BLACK SPOTS ON THE CALENDAR

September

Several profs, having spent summer working or traveling, are glad to get back for vacation.

"Dirty John" Kirwan steps off train with nostalgic look in his eye and immediately goes for a "beaker of suds."

Post of the Student Council returns with a beard looking like that of the buffalo on the back of a five-cent piece.

Prof. "K" Jackson starts year by speaking to a freshman.

Definite need for a Dean of Women foreseen—20 co-eds enroll.

Mr. Hubbard applies for the job.

Away from their mammas for the first time, Freshmen spent month bawling.

Bolotsky starts year by working problem on a slipstick seven times and still doesn't believe his answer.

Compton, Ballard, Taylor, Aittama, and few others longingly express hope of graduating.
